PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering graduate and Master of Technology in Artificial Intelligence candidate. Successfully completed the front-end phase of IBT College's Software & QA Engineering program, mastering JavaScript, TypeScript, vanilla CSS, Tailwind CSS, Python, and Linux, while currently progressing into the back-end phase covering Node.js, NestJS, and PostgreSQL. Leveraging a background in academic lab instruction and code review, I am seeking a Software Development Intern position to deliver clean, scalable solutions, contribute to real-world projects, and gain hands-on engineering experience within a collaborative development team.

TECHNICAL SKILLS

Category	Technologies & Tools
Languages & Tools	JavaScript, TypeScript, Python, HTML5, CSS3, Tailwind CSS, Bash, Linux, Git, GitHub
Frameworks & Runtimes	React.js, Next.js, Node.js, NestJS, PostgreSQL
Core Competencies	Data Structures & Algorithms, Object-Oriented Programming (OOP), Technical Documentation

WORK EXPERIENCE

Senior Technical Assistant

Ethiopian Defense University | Bishoftu, Ethiopia *2022 – 2026*

- Deliver technical instruction and practical lab guidance in foundational and advanced computer engineering topics, including Object-Oriented Programming (OOP), Data Structures & Algorithms, and Computer Programming.
- Conduct rigorous code reviews and evaluate student software assignments to enforce clean coding standards, proper design patterns, and efficient logic.
- Assist in troubleshooting, debugging, and maintaining software setup across computer laboratory systems.

- Document technical guidelines, lab manuals, and student progress reports to ensure structured learning environments.

KEY PROJECTS

Addis Eats — Next.js Full-Stack App Router Edition Sep 2026
Next.js (App Router) · React 18 · TypeScript · Zustand · Recharts · CSS Modules

- Ported ordering platform to Next.js App Router with server/client boundaries, dynamic routes, and TeleBirr checkout.
- Engineered live delivery tracking countdown and delay escalation pipeline with 20% apology discount voucher.

Live / Report: Click here · Code: Click here

Addis Eats — React Single-Page Application (SPA) Aug 2026
React 18 · Vite · Zustand · React Router DOM · Recharts · Pure CSS

- Built modular SPA using Zustand with persistent middleware for reliable local storage state syncing.
- Implemented real-time stock decrements and automated frosted out-of-stock overlay handling for 16+ meals.

Live / Report: Click here · Code: Click here

Addis Eats — Vanilla Web App & Admin Dashboard Jul 2026
HTML5 · CSS3 · JavaScript (ES6+) · LocalStorage / SessionStorage

- Developed responsive food ordering app and admin operations dashboard using pure HTML5, CSS3, and ES6+.
- Engineered client-side cart calculations, live search filtering, and session-guarded admin authentication.

EDUCATION

Bachelor of Science in Computer Engineering

Debre Berhan University | Debre Berhan, Ethiopia *Graduated: September 2022*

Master of Technology in Artificial Intelligence

Ethiopian Defense University | Bishoftu, Ethiopia *In Progress (2026)*

Full stack Software & QA Engineering In Progress (July- now 2026)
IBT Ethiopia – Advanced Digital Skills Training | Megenagna, Ethiopia

CERTIFICATIONS

- **Python Programming Training:** 4K Labs & Addis Ababa University Computer Science Department (2023)
- **Dereja Academy Accelerator Program:** Mastercard Foundation & Dereja (2022)
- **Virtual Assistant Professional Certificate:** ALX (2024)
- **Google Workspace Specialization:** Udacity (2024)
